

## Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts as well as different forklifts can have specific labels utilized in certain hazardous locations. The label denotes that this particular model of lift truck meets the minimum standards of ANSI/UL 553 intended for electric forklifts or ANSI/UL 558 meant for internal combustion engine forklifts.

Applications for labeled trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Ask your local insurance carrier and Fire Marshall for more information regarding the permitted uses of industrial powered forklifts in your application.

If the particular lift truck meets the outlined standards, labels could be placed. A labeled forklift will show the type of designation located on the nameplate and would have a correctly corresponding label placed.
